

TRCJ EXTRUDER

TRCJ extruder is for soft candy products extrusion including chewing gums, bubble gums, toffees, soft caramels and milky candies. All contacting parts with products are made of SS 304. TRCJ is equipped with double feeding rollers, Λ-shaped double extrusion screws, temperature-regulated extrusion chamber and it can extrude one or two-color products

Special Features

- PLC control system, touch screen HMI, integrated control
- Extrusion screws and feeding rollers are driven by separate SEW motors and speed adjustable via frequency converter
- Motor driven flipping upper extrusion bin (Optional)
- Modular design, easy to maintain and clean
- CE certification

Combinations

- Combined TRCJ with SANKE's Mixer UJB300 and Cooling tunnel ULD to make a chewing gum, bubble gum, chewy candy production line

Main Data

Output

- 100-2000 kg/h

Connected Load

- 5.5-40 kw

Machine Measurements

- Length: 3000 mm
- Width: 1200-1900 mm
- Height: 2200 mm

Machine Weight

- 3000-9000 kg
